

stanley

Sprinter 190 > powered stair climber

A powered stair climber from Stanley ensures the safe, quick and efficient transportation of materials on stairs, uneven steps and kerbs. With a carrying capacity of up to 190kg, the Sprinter 190 stair climber trolley enables heavy and awkward loads to be manoeuvred by a single operator.

With a wide range of accessories available, each stair climber can be fully customised to accommodate products of all shapes and sizes. The simple push-button control, automatic staircase edge detection and removable fast-charging battery with power monitor, make the Sprinter 190 a market leading powered stair climber.

Benefits

- > Single operator usage cuts the manpower required
- > Reduce the risk of manual handling injury
- > Improve efficiency of business operations
- > Robust double beam frame for added safety
- > Foldable loading board and handle for easy stowage
- > Push-button control
- > Twin-speed function for operator safety
- > Adjustable handle for varying load height
- > Manoeuvrable on tight landings
- > Power display meter
- > Puncture proof tyres
- > Removable battery for in-transit charging
- > Bespoke accessories for different sectors
