Sprinter Lifter > automatic hand stacker

Stanley's Sprinter Lifter is an automatic hand stacker that enables the safe, quick, and efficient loading and unloading of materials. A cost-effective alternative solution to a permanent vehicle tailgate, the electric hand stacker has a 170kg lifting capacity with a lift height of up to 1.1m. Using the remote control, a single operator can lift loads safely into vehicles and racking, as well as many other applications.

Ideal for workshops or warehouses where forklifts are not permitted nor financially viable, the Sprinter Lifter handles all types of materials handling. Its single operator usage enables awkward loads to be manoeuvred into vehicles with ease, reducing the risk of manual handling injury.

Benefits

- > Self-lifting machine for easy loading
- > Lightweight aluminium design
- > Automatic obstruction detection
- > Universal wheel allows 360-degree rotation
- > Removable fast-charging lithium battery
- > Easy to use remote control
- > Removable legs for easy stowage
- > Can be used as a trolley

Specification

- 170kg maximum lifting capacity
- 1.1m maximum lift height
- 3-4 hours fast charging lithium battery
- Battery power meter
- Battery capacity - 250-300 times (1 time = up/down)
- Weight of battery - 3.2kg
- Weight of machine - 43.6kg
- Overall size - 1470mm x 550mm x 650mm
- Conforms to EC materials handling regulations
- Range of accessories

- ✔ Competitive finance and hire options
- ✔ Free demonstrations
- ✔ Certificated training
- ✔ National maintenance coverage
- ✔ Preventative maintenance schedule
- ✔ 12-month parts warranty
