Sprinter Hybrid 190 > integrated lifter and powered stair climber

The Sprinter Hybrid 190 combines the functionality of Stanley's Lifter automatic hand stacker with its Sprinter powered stair climber. The result is a fully integrated materials handling machine with the ability to lift itself onto a platform or into a goods vehicle, even whilst fully laden.

Providing a cost-effective solution compared to a permanent tailgate or forklift, the Sprinter Hybrid 190 has a built-in laser safety feature, that enables the safe and easy loading and unloading of heavy goods and materials.

Ideal for workshops or warehouses where forklifts are unable to operate due to uneven floors, stairs or curbs, the Sprinter Hybrid 190 enables a single operator to manage awkward loads with ease, reducing the risk of manual handling injury.

Benefits

- > Self-loading operation
- > Automatic stack safe height using laser technology
- > Dual usage Lifter and powered stair climber
- > Remote control operation
- > Lightweight but robust aluminium structure
- > Removable fast charging lithium battery
- > Removable legs for easy stowage
- > Battery power meter
- > Bespoke accessories for different sectors

Specification

- 190kg maximum lift capacity
- 1.1m maximum lift height
- 3 hours fast charge lithium battery
- Battery capacity - 230-290 times (1 time = up/down)
- Weight of battery - 3.2kg
- Weight of machine - 54.8kg
- Climb speed - 23-34 steps per minute
- Rise and fall speed - between 20 – 50 secs a time
- Overall size - 1390mm x 585mm x 650mm
- Conforms to EC materials handling regulations

- ✔ Free demonstrations
- ✔ Certificated training
- ✔ National maintenance coverage
- ✔ Preventative maintenance schedule
- ✔ Competitive finance and hire options
- ✔ 12-month parts warranty
