Competitive pricing
Extensive range of heights, lengths and depths

Multitude of accessories available
Adaptable to different weight capacities
Hassle free installation

Stanley offer many bespoke shelving solutions for a variety of industries. The range of shelving systems can be adapted to any weight capacity or space, with many accessories to choose from.

Fully adjustable galvanised slot together shelving system:

- Avoid scratching and aging that painted systems can suffer from
- CE certified for orders manufactured to order
- Shelves are fully galvanised or plastic avoiding the dusty and brittle nature of chipboard
- Perforated shelf options available for installations with sprinkler systems
- Interchangeable between standard shelving and garment hanging requirements
- Available in traditional static arrangement, mobile option & multi-tier designs
- Store up to 8000mm in height using a single upright

- Huge availability of lengths and depths;
- Lengths: 600, 900, 1050, 1200, 1350, 1500, 1800, 2100, 2400, 2700mm
- Depths: 320, 400, 500, 600, 700, 800, 900, 1000, 1100, 1200mm
- Individual shelf loadings available up to 800Kg when evenly distributed load
- Double sided upright frames to allow continuous rows of shelving, promoting stability and strength

Multitude of accessories including:

- Cladding
- lockable doors
- drawers
- dividers
- bins
